

iCODECONNECT: REGISTERING A NEW ACCOUNT FOR PHYSICIANS AND SLEEP LABS

Physicians often want to have access to a patient for monitoring and reporting on PAP efficacy. In the iCodeConnect system it is currently possible to connect ONE entity to a patients record. For Physician groups that share patient access it is requested that they register as a group.

For example, instead of registering as Dr. John Doe, they register as the Doe Sleep Center. This serves to allow an easier way for the DME customer to find and tag the physician group. Occasionally, some groups are not able to share a log in (often due to Health System Security Regulations) in these instances the DME can add the physicians as a Subsidiary Provider.

Important Note: If the DME adds the Physician as a subsidiary provider vs. adding as a Physician, the Physician will have access to editing details.

1

Go to www.icodeconnect.com

2

Register for a Physician Account as shown below:

NOTE: If you are registering as a sleep lab you will place the name in both the first and last name boxes

Example: First: Doe Sleep Lab
Last: Doe Sleep Lab

3

Register with your information as shown below. Items with * are required fields

iCODECONNECT: REGISTERING A NEW ACCOUNT FOR PHYSICIANS AND SLEEP LABS (Continued)

4 Log in to see patients that have been assigned to you

Physician Accounts are able to:

- Download SD card reports
- Input 16-digit iCodes
- Run Comprehensive Therapy Reports
- Run Summary Therapy reports
- Push device settings changes for patients with a modem

5 If patients are assigned to you, you a Patient List will populate as shown below

Patient ID	Machine Serial	Machine PIN	City	State	Clinician	Therapy start	Watch Group	Compliance (%)
